

Hygro Dehumidifier Solution to treat moisture for all Applications including but not limited to:

APPLICATIONS

Corrosion Prevention
Condensation Protection
Moisture Regain Prevention
Mold/Fungus Prevention
Moisture Regain Prevention
Product drying
Dry Cooling

Corrosion Prevention
Military Storage
Wind turbine
Electronics
Power Plant Layup
Lithium Battery Production
Marine Applications
Industrial plant layup
Galvanized steel storage
Bridges
Bearing storage
Generator rotor storage
Automotive
Aircraft
Calcium metal fabrication
Chemical plants
Canal lock systems
Boiler protection
Military tanks
Helicopter storage
Nuclear waste storage
Precision tooling storage
Ammunition storage
Tyre creel rooms & wire storage
Razor blade manufacturing
Switchgear
Busbar protection

INDUSTRIES

Agriculture
Automotive
Aviation
Chemical processing
Commercial and public buildings
Construction
Data center and telecom cooling
Defence & Aerospace
Education
Electronics & Electricals
Food & Beverage
General industry/Production
Green house
Healthcare
Leather
Libraries
Marine
Museums
Optical
Oil, gas & petroleum
Pharmaceutical
Power generation and
Distribution
Pulp, paper & printing
Pharmaceuticals
Recreation & Leisure
Retail & Supermarkets
Rubber Industry
Shipbuilding & Marine
Steel Industry
Storage, prevention & Archives
Special purpose rooms
Textile Industry
Water treatment plants
Warehouse (Low RH)
Steel-Belted Tyres
Tyre & Rubber Manufacturing
Welding Electrodes
Wood Drying

Condensation Protection

Cold Storages
Ice Rinks
Water Treatment Plants
Surface Preparation & Coating
Injection Moulding
Optical Manufacturing
Large gear cases
High vacuum sputtering
Chilled rollers for film casting
Fruit & vegetable storage

Mold /Fungus Prevention

Archival Storage
Seed Storage
Cargo Protection
Breweries
Grain storage
Historic buildings protection
Photographic film storage
Wooden sculpture preservation
Fur storage
Leather storage
Dried fish storage
Milk powder storage
Museum storage
Cottages in sea shore
Fabric & textile storage

Moisture Regain Prevention

Candy Manufacturing
Clean Rooms
Safety Glass Laminating
Composite Manufacturing
Biomedical dry rooms
Fertilizer packaging & storage
Pharmaceutical
Foundry core storage
Powder products packaging
Plastic resin storage
Instant coffee processing
Composite fibers material storage
Paper storage
Flour, plastic and powder conveying
Sugar storage & packaging
Epoxy powder manufacturing
Precision/3D colour printing
Dried vegetable storage
Propellant production
Missile equipments storage
Contact lens manufacturing
Filament winding

Fruit powder manufacturing
Chewing gum manufacturing

Product Drying

Investment Castings
Spices drying
Plastic Resin Drying
Candy Coating
Fish Drying
Honey drying
Film manufacturing
High voltage transformers
Diagnostic reagent powders
Whey powder
Instant coffee
Pharmaceutical powders
Yeast
Sorbitol
Sugar substitutes
Welding rods
PET plastic resin
Nylon resin
Bead polystyrene
Glass powder
Paint pigment
Tomato powder
Noodles
Cigars
Seeds
Tea
Gelatin
Onions & garlic
Milk & whey powders
Jelly beans
Breakfast cereal
Gelatin capsules

Dry Cooling

Supermarkets
Hotels
Sick Buildings
Advanced HVAC Systems
Public buildings & auditoriums
Nursing homes
Health clubs
Gym
Retail stores
Indoor swimming pool
Hospitals
